Dear Sir/Madam,

I have the pleasure to enclose our 2011 documentation herewith.

Still preserved from the tourist crowds, Belz is ideally located in the heart of Morbihan. Known for its privileged mild climate, the south coast of Brittany is carved by estuaries forming genuine inland seas. The Ria d'Étel is one of those unspoilt paradises where you will enjoy altogether the pleasures of the beach, fishing, discovery, sports and relaxation.

Our Campsite *Le Moulin des Oies* sits by the water in view of the famous islet of Saint. Cado. It is the ideal starting point for exploring the greatest attractions of Brittany. Nearby, you can start by the discovery of the ocean and its long sandy beaches, many hiking trails and thousands of megaliths.

On an area of nearly 2 ha with 90 pitches, our campsite offers all the facilities of a 2 \*\* and sometimes more: toilets with washbasins in cubicles, free hot water, cubicles for babies, children and disabled, laundry room, service area for motor homes, a relaxing lounge with games and TV (7 & 8), snack-bar (7 & 8), private picnic area(7 & 8), playground with multi - sports, large pool of sea water with a beach and deckchairs ,..... and the tranquillity.

You may also rent a furnished caravan with awning or a mobile home on a private plot.

At the reception you will find a very comprehensive "Information desk". We will guide you to find the way to our rambling paths, cycling trails and tourist routes to surrounding cities and villages.

Accessible to all vehicles, *Le Moulin des Oies* has direct access to the Ria d'Étel inland sea and lies 700 meters from the town centre where you will find all amenities for shopping and services.

Looking forward to welcome you soon in South Brittany!

Brigitte Trégret

**Campsite open from April 9 until October 1, 2011 for mobile homes  
And from May 6<sup>th</sup> until September 17<sup>th</sup> 2011 for tents and caravans.**
